Subject Response to Your Letter Regarding A Request for A Meeting with the NDPP Regarding the Outcomes of the Judicial Commission of Inquiry into State Capture

Dear Adv. S. Batohi,

The abovementioned matter refers.

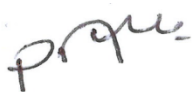

I am genuinely thankful for your response and hope that we can foster a positive working relationship between our two organisations for the foreseeable future. It is in the best interests of South Africans for us to work together.

Certainly, your response creates hope and belief that the recommendations of the report under discussion will be adhered to. We will watch the progress of the interdisciplinary team that you have created with great interest.

However, should progress be lacking in prosecutions and investigations regarding those implicated in the Judicial Commission into State Capture in six (6) months' time, I will have no choice as a patriotic South African but to lay criminal charges against those implicated and to utilise all legal means available to ActionSA to ensure that justice is done.

I believe that as fellow citizens of our beautiful country, we can fix South Africa together.

Kind Regards

Herman Mashaba
President
